With the eviction moratorium set to be lifted on August 14, 2020, about 365,000 renter households in Los Angeles County are in imminent danger of eviction and homelessness according to a recent study from the UCLA Luskin Institute on Inequality and Democracy. Please join us for a virtual public forum with housing justice researchers and community organizers to discuss the tenants' rights crisis and what can be done to mitigate the damage to Angelenos through enforceable rights and robust protections.

The event will feature research findings from the following reports

- **UD Day: Impending Evictions and Homelessness in Los Angeles**
- **Hotel California: Housing the Crisis**
- **Economic Impacts of the COVID-19 Crisis in Los Angeles: Identifying Renter-Vulnerable Neighborhoods**
