

July 26, 1988

Dear Bill,

Hope you're enjoying summer in spite of the rain and humidity and the hot weather from time to time. I certainly am relaxing and enjoying digging into the dirt and attacking the weeds out in the yard and the relaxed schedules of summer. This is a stay at home summer and I love it.

I finally got copies and the film developed and am enclosing some shots of you during the Peace March in NYC. last June 11th. How time flies. As great as the march was with the estimated 100,000 by the peace groups and the 60,000 by the police, it was small compared to that of 3 years ago when we hit near a million people! Also, I understand that the peace organizers are several thousands into debt without the financial support of several of the expected corporate contributions and small collections and lack of volunteers. Too, too bad. In seemingly affluent places the money just isn't there. Here in Westchester bur homeless count in the thousands--right in White Plains. We collect, prepare and serve food to hundreds and yet it is not enough. How sad.

How are Mary and your family? It's hard to believe how much everyone has grown and how now our grandchildren are growing so rapidly. What kind of world will they have, I wonder. We're certainly not leaving them a safe, clean environment. Our so called technologies just can't keep up and when a passenger airliner is mistaken with a missile air ship what kind of technology can we brag about? How scaring.

Happy as the summer is, I seem to be full of blues over our world conditions. Well, keep the faith and take care of our health and do what we can--right? Love to all-----

Aloha,  
Sarah
