

Sheetings!

How wonderful - of all the people to hook-up with to find Mutulu! Was a pleasant surprise to speak with you + for you to remember us.

Thru the years Sue always asked Nobuko about you + family. Abo, Ochun has heard your name every year since she can remember. I say that because we celebrate Malcolm's birthday + I always mention you in some way or another. She looks forward to meeting you.

Yes, she is quite lovely! From the inside out. She's a rare person - enjoy her alot. She recently got accepted to U.C.L.A. Not sure what she's interested in quite yet but the opportunity came to her + she's interested. I think it will be a good + very broadening experience. It will seriously expose her to this system from another view + I think will strengthen the reality we know. She's also learning to fly cessna planes - etc. etc.

Um - Geronimo. Really am not up on his immediate situation. It's been a few years since she

2 -
interacted with his folks.

you mention your grandchildren
+ it hit me you could be a
great grandparent in a few years.
Life is truly something, yes, I remember
them but not as young adults - wow -
Churne + I have been in touch.
We've spoken a couple of times. He sent
me a packet of material ~~of~~ con-
cerning Mutulu + some others + I
got that money to him. It wasn't
necessary to speak with Mutulu be-
cause he conveyed his wishes thru
Churne. I enjoyed speaking with Churne
+ catching up on Mutulu's develop-
ment + growth.

Sincerely hope we can get
together when you come this way.
Thank you so much for
extending your hospitality, if/when
we get that way. Ochiu is
very curious about N.Y. now
that she is older.

Housework is calling me -
So good to be in touch!
