Dear Yuri

I heard you are braking down from Shizuka
and Ruiko. Now how is your condition?

From that time I met you first in your
house, I've been thinking you are working too
much. That's my first impressions about you.

Yes, I know your many kind of situation and
your humanity just a little bit.

But, so that I've been thinking that I have
to say you had better take a rest in some
time. This is, I think, mainly for yourself.

and finally it's necessary for your activity.
That's why I think political situation is a
Ghost or a Monster anytime.

I think you are too naïve to fight ~~Ghost~~
for such long time. I know there were
no other choice to you.

Now you had better save energy, isn't it?

I've been working blacksmith. And, me
and my company continue our movement
through music, specially improvisation music.
In April we invited two European

musicians, and had 13 or 14 concerts in many places. They are very strong and flexible, and they are not so much musicians as artists. I studied many string through their attitude toward their lives and music. That is same case as I studied from you. Well, I have to report you that I have changed my first name. Some weeks before I had a chance to meet a analyzer of name and ask analysis of my name. So I did. My new name "NORIAKI (謹彰)" is, that

analyzer said, very good for all meanings.
He said I'll be make much money and I'll be
in good health. You can call me my old
name or new name. Both are all right
I don't care.

The leaflets I enclosed are the thing we
made for april concerts.

Specially recently I would like to go
New York.

Take care of yourself

Noriaki (Kiyomake)
